Two-step equations - word problems - integers

1) Half of your baseball card collection got wet and was ruined. You bought 19 cards to replace some that were lost. How many did you begin with if you now have 45?

2) Daniel spent half of his weekly allowance on candy. To earn more money his parents let him wash the car for $5. What is his weekly allowance if he ended with $10?

3) DeShawn's Bikes rents bikes for $11 plus $5 per hour. Maria paid $51 to rent a bike. For how many hours did she rent the bike?

4) You had $21 to spend on seven raffle tickets. After buying them you had $0. How much did each raffle ticket cost?

5) The sum of three consecutive odd numbers is 87. What is the smallest of these numbers?

6) Anjali had $20 to spend on two pens. After buying them she had $16. How much did each pen cost?

7) Kim sold half of her comic books and then bought eight more. She now has 38. With how many did she begin?

8) The sum of three consecutive even numbers is 36. What is the smallest of these numbers?

9) Emily spent half of her weekly allowance playing mini-golf. To earn more money her parents let her wash the car for $9. What is her weekly allowance if she ended with $16?

10) The sum of three consecutive even numbers is 66. What is the smallest of these numbers?

11) Jasmine spent half of her weekly allowance at the movies. To earn more money her parents let her clean the oven for $7. What is her weekly allowance if she ended with $16?

12) Shawna sold half of her comic books and then bought five more. She now has 24. With how many did she begin?

13) You bought a magazine for $2 and some erasers for $5 each. You spent a total of $12. How many erasers did you buy?

14) Danielle spent half of her weekly allowance at the movies. To earn more money her parents let her clean the gutters for $10. What is her weekly allowance if she ended with $16?

15) 285 students went on a field trip. Five buses were filled and 15 students traveled in cars. How many students were in each bus?

16) Willie spent half of his weekly allowance on candy. To earn more money his parents let him clean the oven for $10. What is his weekly allowance if he ended with $20?

17) Brenda was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought thirteen more. How many did she start with if she now has 33?

18) Half of your baseball card collection got wet and was ruined. You bought 13 cards to replace some that were lost. How many did you begin with if you now have 29?

19) Aliyah had $24 to spend on three notebooks. After buying them she had $12. How much did each notebook cost?

20) Trevon's Bikes rents bikes for $18 plus $8 per hour. Jaidee paid $74 to rent a bike. For how many hours did she rent the bike?

21) Joe spent half of his weekly allowance playing arcade games. To earn more money his parents let him wash the dog for $7. What is his weekly allowance if he ended with $12?

22) Kristin was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought sixteen more. How many did she start with if she now has 40?

23) Norachai rented a bike from Adam's Bikes. It cost $20 plus $6 per hour. If Norachai paid $50 then he rented the bike for how many hours?

24) The sum of three consecutive odd numbers is 45. What is the smallest of these numbers?

25) Willie spent half of his weekly allowance on clothes. To earn more money his parents let him weed the garden for $5. What is his weekly allowance if he ended with $12?

26) 397 students went on a field trip. Eight buses were filled and 29 students traveled in cars. How many students were in each bus?

27) 259 students went on a field trip. Eight buses were filled and 27 students traveled in cars. How many students were in each bus?

28) Abhasra sold half of her comic books and then bought eighteen more. She now has 46. With how many did she begin?

29) Elisa bought a magazine for $6 and five candy bars. She spent a total of $26. How much did each candy bar cost?

30) The sum of three consecutive even numbers is 84. What is the smallest of these numbers?

31) Castel bought a magazine for $3 and seven erasers. He spent a total of $24. How much did each eraser cost?

32) 172 students went on a field trip. Five buses were filled and 27 students traveled in cars. How many students were in each bus?

33) 140 students went on a field trip. Six buses were filled and 8 students traveled in cars. How many students were in each bus?

34) Ryan spent half of his weekly allowance playing mini-golf. To earn more money his parents let him wash the dog for $8. What is his weekly allowance if he ended with $12?

35) Half of your baseball card collection got wet and was ruined. You bought 7 cards to replace some that were lost. How many did you begin with if you now have 29?

36) You bought a magazine for $7 and some candy bars for $3 each. You spent a total of $16. How many candy bars did you buy?

37) Adam was going to sell all of his stamp collection to buy a video game. After selling half of them he changed his mind. He then bought ten more. How many did he start with if he now has 31?

38) Shanice spent half of her weekly allowance at the movies. To earn more money her parents let her clean the windows in the house for $9. What is her weekly allowance if she ended with $14?

39) Daniel had $25 to spend on six pens. After buying them he had $1. How much did each pen cost?

40) For a field trip 19 students rode in cars and the rest filled six buses. How many students were in each bus if 211 students were on the trip?

41) Half of your baseball card collection got wet and was ruined. You bought 12 cards to replace some that were lost. How many did you begin with if you now have 22?

42) 280 students went on a field trip. Eight buses were filled and 16 students traveled in cars. How many students were in each bus?

43) Amanda was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought thirteen more. How many did she start with if she now has 37?

44) Mei spent half of her weekly allowance playing mini-golf. To earn more money her parents let her wash the dog for $4. What is her weekly allowance if she ended with $7?

45) The sum of three consecutive numbers is 69. What is the smallest of these numbers?

46) The sum of three consecutive odd numbers is 63. What is the smallest of these numbers?

47) Castel spent half of his weekly allowance buying pizza. To earn more money his parents let him clean the gutters for $5. What is his weekly allowance if he ended with $15?

48) You bought a magazine for $7 and some erasers for $4 each. You spent a total of $39. How many erasers did you buy?

49) The sum of three consecutive even numbers is 60. What is the smallest of these numbers?

50) The sum of three consecutive numbers is 84. What is the smallest of these numbers?

51) Jessica was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought nine more. How many did she start with if she now has 24?

52) Mofor sold half of his comic books and then bought nine more. He now has 27. With how many did he begin?

53) Huong bought a magazine for $2 and eight erasers. She spent a total of $34. How much did each eraser cost?

54) Half of your baseball card collection got wet and was ruined. You bought 5 cards to replace some that were lost. How many did you begin with if you now have 17?

55) Arjun spent half of his weekly allowance at the movies. To earn more money his parents let him mow the lawn for $8. What is his weekly allowance if he ended with $15?

56) For a field trip 26 students rode in cars and the rest filled nine buses. How many students were in each bus if 332 students were on the trip?

57) Jaidee spent half of her weekly allowance on candy. To earn more money her parents let her wash the car for $10. What is her weekly allowance if she ended with $18?

58) Gabriella spent half of her weekly allowance on candy. To earn more money her parents let her clean the gutters for $7. What is her weekly allowance if she ended with $11?

59) 224 students went on a field trip. Four buses were filled and 4 students traveled in cars. How many students were in each bus?

60) Bill was going to sell all of his stamp collection to buy a video game. After selling half of them he changed his mind. He then bought ten more. How many did he start with if he now has 37?

61) John sold half of his comic books and then bought fourteen more. He now has 44. With how many did he begin?

62) The sum of three consecutive numbers is 66. What is the smallest of these numbers?

63) 133 students went on a field trip. Three buses were filled and 7 students traveled in cars. How many students were in each bus?

64) For a field trip 13 students rode in cars and the rest filled three buses. How many students were in each bus if 127 students were on the trip?

65) Norachai bought a magazine for $7 and three candy bars. He spent a total of $19. How much did each candy bar cost?

66) Kathryn spent half of her weekly allowance playing arcade games. To earn more money her parents let her weed the garden for $5. What is her weekly allowance if she ended with $9?

67) Aliyah spent $34 on a magazine and six erasers. If the magazine cost $4 then how much was each eraser?

68) Julia had $20 to spend on eight advocados. After buying them she had $4. How much did each advocado cost?

69) The sum of three consecutive numbers is 78. What is the smallest of these numbers?

70) Totsakan sold half of his comic books and then bought twenty more. He now has 33. With how many did he begin?

71) Ashley was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought fourteen more. How many did she start with if she now has 26?

72) Nicole rented a bike from Jacob's Bikes. It cost $11 plus $3 per hour. If Nicole paid $23 then she rented the bike for how many hours?

73) Half of your baseball card collection got wet and was ruined. You bought 16 cards to replace some that were lost. How many did you begin with if you now have 28?

74) Matt's Bikes rents bikes for $14 plus $8 per hour. Anjali paid $54 to rent a bike. For how many hours did she rent the bike?

75) Perry spent half of his weekly allowance on clothes. To earn more money his parents let him wash the car for $7. What is his weekly allowance if he ended with $15?

76) Cody spent half of his weekly allowance on candy. To earn more money his parents let him wash the dog for $8. What is his weekly allowance if he ended with $17?

77) Gabriella spent half of her weekly allowance on clothes. To earn more money her parents let her clean the oven for $6. What is her weekly allowance if she ended with $15?

78) 189 students went on a field trip. Four buses were filled and 29 students traveled in cars. How many students were in each bus?

79) Norachai sold half of his comic books and then bought eleven more. He now has 32. With how many did he begin?

80) Wilbur spent half of his weekly allowance buying pizza. To earn more money his parents let him wash the car for $9. What is his weekly allowance if he ended with $15?

81) Brenda was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought twelve more. How many did she start with if she now has 41?

82) The sum of three consecutive even numbers is 90. What is the smallest of these numbers?

83) Shawna sold half of her comic books and then bought fifteen more. She now has 42. With how many did she begin?

84) Brenda spent half of her weekly allowance at the movies. To earn more money her parents let her weed the garden for $5. What is her weekly allowance if she ended with $14?

85) You had $24 to spend on seven advocados. After buying them you had $10. How much did each advocado cost?

86) Half of your baseball card collection got wet and was ruined. You bought 14 cards to replace some that were lost. How many did you begin with if you now have 37?

87) Ndiba rented a bike from Kim's Bikes. It cost $20 plus $3 per hour. If Ndiba paid $35 then he rented the bike for how many hours?

88) You had $20 to spend on four raffle tickets. After buying them you had $12. How much did each raffle ticket cost?

89) Half of your baseball card collection got wet and was ruined. You bought 18 cards to replace some that were lost. How many did you begin with if you now have 38?

90) Half of your baseball card collection got wet and was ruined. You bought 17 cards to replace some that were lost. How many did you begin with if you now have 42?

91) Paul sold half of his comic books and then bought four more. He now has 22. With how many did he begin?

92) For a field trip 6 students rode in cars and the rest filled nine buses. How many students were in each bus if 258 students were on the trip?

93) Stefan's Bikes rents bikes for $19 plus $5 per hour. Micaela paid $39 to rent a bike. For how many hours did she rent the bike?

94) The sum of three consecutive odd numbers is 69. What is the smallest of these numbers?

95) Jill sold half of her comic books and then bought nineteen more. She now has 43. With how many did she begin?

96) For a field trip 9 students rode in cars and the rest filled eight buses. How many students were in each bus if 337 students were on the trip?

97) Kali spent $15 on a magazine and some erasers. If the magazine cost $3 and each eraser cost $2 then how many erasers did she buy?

98) For a field trip 7 students rode in cars and the rest filled ten buses. How many students were in each bus if 527 students were on the trip?

99) 268 students went on a field trip. Nine buses were filled and 16 students traveled in cars. How many students were in each bus?

100) Mary spent half of her weekly allowance playing mini-golf. To earn more money her parents let her clean the gutters for $6. What is her weekly allowance if she ended with $16?

101) Matt spent half of his weekly allowance buying pizza. To earn more money his parents let him clean the gutters for $4. What is his weekly allowance if he ended with $9?

102) A wise man once said, "400 reduced by 3 times my age is 244." What is his age?

103) You had $21 to spend on seven notebooks. After buying them you had $7. How much did each notebook cost?

104) You had $21 to spend on six advocados. After buying them you had $3. How much did each advocado cost?

105) Beth was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought eight more. How many did she start with if she now has 23?

106) Pranav had $21 to spend on four advocados. After buying them he had $5. How much did each advocado cost?

107) You had $21 to spend on two notebooks. After buying them you had $17. How much did each notebook cost?

108) Kayla won 54 super bouncy balls playing hoops at her school's game night. Later, she gave two to each of her friends. She only has 6 remaining. How many friends does she have?

109) How old am I if 400 reduced by 2 times my age is 276?

110) Dan spent half of his weekly allowance buying pizza. To earn more money his parents let him clean the windows in the house for $8. What is his weekly allowance if he ended with $14?

111) Abhasra spent half of her weekly allowance on clothes. To earn more money her parents let her mow the lawn for $5. What is her weekly allowance if she ended with $14?

112) Elisa spent half of her weekly allowance on candy. To earn more money her parents let her wash the car for $5. What is her weekly allowance if she ended with $15?

113) Julia's Bikes rents bikes for $16 plus $8 per hour. Jasmine paid $32 to rent a bike. For how many hours did she rent the bike?

114) For a field trip 5 students rode in cars and the rest filled three buses. How many students were in each bus if 176 students were on the trip?

115) Half of your baseball card collection got wet and was ruined. You bought 15 cards to replace some that were lost. How many did you begin with if you now have 45?

116) A wise man once said, "200 reduced by twice my age is 66." What is his age?

117) 173 students went on a field trip. Six buses were filled and 23 students traveled in cars. How many students were in each bus?

118) Julia sold half of her comic books and then bought twenty more. She now has 49. With how many did she begin?

119) Kristin won 41 lollipops playing the bean bag toss at the county fair. At school she gave three to every student in her math class. She only has 5 remaining. How many students are in her class?

120) How old am I if 500 reduced by 2 times my age is 368?

121) Half of your baseball card collection got wet and was ruined. You bought 19 cards to replace some that were lost. How many did you begin with if you now have 32?

122) Nicole spent half of her weekly allowance at the movies. To earn more money her parents let her weed the garden for $6. What is her weekly allowance if she ended with $12?

123) You had $22 to spend on four pencils. After buying them you had $10. How much did each pencil cost?

124) Amy spent $9 on a magazine and three erasers. If the magazine cost $3 then how much was each eraser?

125) How old am I if 300 reduced by 2 times my age is 136?

126) Gabriella spent half of her weekly allowance at the movies. To earn more money her parents let her clean the windows in the house for $10. What is her weekly allowance if she ended with $16?

127) Aliyah spent half of her weekly allowance on candy. To earn more money her parents let her clean the oven for $4. What is her weekly allowance if she ended with $11?

128) Jennifer won 58 pieces of gum playing the bean bag toss at her school's game night. Later, she gave four to each of her friends. She only has 2 remaining. How many friends does she have?

129) Mark sold half of his comic books and then bought nine more. He now has 29. With how many did he begin?

130) For a field trip 22 students rode in cars and the rest filled seven buses. How many students were in each bus if 435 students were on the trip?

131) Julia had $20 to spend on two pencils. After buying them she had $12. How much did each pencil cost?

132) Jacob spent half of his weekly allowance on candy. To earn more money his parents let him clean the windows in the house for $9. What is his weekly allowance if he ended with $12?

133) DeShawn sold half of his comic books and then bought eight more. He now has 20. With how many did he begin?

134) The sum of three consecutive even numbers is 48. What is the smallest of these numbers?

135) How old am I if 400 reduced by 4 times my age is 84?

136) How old am I if 400 reduced by 3 times my age is 124?

137) Julio rented a bike from Ndiba's Bikes. It cost $14 plus $8 per hour. If Julio paid $54 then he rented the bike for how many hours?

138) Mofor was going to sell all of his stamp collection to buy a video game. After selling half of them he changed his mind. He then bought fourteen more. How many did he start with if he now has 38?

139) Half of your baseball card collection got wet and was ruined. You bought 5 cards to replace some that were lost. How many did you begin with if you now have 32?

140) You bought a magazine for $6 and some candy bars for $2 each. You spent a total of $14. How many candy bars did you buy?

141) Half of your baseball card collection got wet and was ruined. You bought 13 cards to replace some that were lost. How many did you begin with if you now have 39?

142) For a field trip 4 students rode in cars and the rest filled three buses. How many students were in each bus if 136 students were on the trip?

143) Ted spent half of his weekly allowance at the movies. To earn more money his parents let him clean the windows in the house for $5. What is his weekly allowance if he ended with $8?

144) Jaidee had $21 to spend on six pencils. After buying them she had $9. How much did each pencil cost?

145) Trevon spent half of his weekly allowance playing mini-golf. To earn more money his parents let him wash the dog for $8. What is his weekly allowance if he ended with $17?

146) A wise man once said, "400 reduced by twice my age is 224." What is his age?

147) A wise man once said, "400 reduced by 4 times my age is 20." What is his age?

148) Sarawong sold half of his comic books and then bought fourteen more. He now has 30. With how many did he begin?

149) Anjali spent half of her weekly allowance at the movies. To earn more money her parents let her clean the windows in the house for $10. What is her weekly allowance if she ended with $13?

150) Ming's Bikes rents bikes for $11 plus $2 per hour. Carlos paid $25 to rent a bike. For how many hours did he rent the bike?

151) 219 students went on a field trip. Five buses were filled and 9 students traveled in cars. How many students were in each bus?

152) Shawna won 54 lollipops playing horseshoes at the county fair. At school she gave four to every student in her math class. She only has 2 remaining. How many students are in her class?

153) You bought a magazine for $3 and three candy bars. You spent a total of $12. How much did each candy bar cost?

154) How old am I if 300 reduced by 4 times my age is 80?

155) Scott sold half of his comic books and then bought eight more. He now has 32. With how many did he begin?

156) How old am I if 500 reduced by 4 times my age is 160?

157) A wise man once said, "400 reduced by twice my age is 242." What is his age?

158) Perry spent $19 on a magazine and some erasers. If the magazine cost $4 and each eraser cost $5 then how many erasers did he buy?

159) Darryl spent half of his weekly allowance buying pizza. To earn more money his parents let him clean the gutters for $5. What is his weekly allowance if he ended with $12?

160) You bought a magazine for $3 and two candy bars. You spent a total of $9. How much did each candy bar cost?

161) Jenny spent $30 on a magazine and some erasers. If the magazine cost $6 and each eraser cost $3 then how many erasers did she buy?

162) Krystal won 38 lollipops playing horseshoes at her school's game night. Later, she gave two to each of her friends. She only has 8 remaining. How many friends does she have?

163) The sum of three consecutive numbers is 72. What is the smallest of these numbers?

164) Ming spent half of her weekly allowance on candy. To earn more money her parents let her wash the car for $8. What is her weekly allowance if she ended with $18?

165) Gabriella was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought five more. How many did she start with if she now has 19?

166) Jack won 60 lollipops playing hoops at his school's game night. Later, he gave two to each of his friends. He only has 10 remaining. How many friends does he have?

167) 294 students went on a field trip. Seven buses were filled and 14 students traveled in cars. How many students were in each bus?

168) A wise man once said, "300 reduced by twice my age is 144." What is his age?

169) Eduardo spent half of his weekly allowance on clothes. To earn more money his parents let him weed the garden for $8. What is his weekly allowance if he ended with $12?

170) For a field trip 16 students rode in cars and the rest filled six buses. How many students were in each bus if 340 students were on the trip?

171) For a field trip 17 students rode in cars and the rest filled nine buses. How many students were in each bus if 413 students were on the trip?

172) How old am I if 400 reduced by 4 times my age is 184?

173) Molly won 99 pieces of gum playing basketball at the county fair. At school she gave four to every student in her math class. She only has 7 remaining. How many students are in her class?

174) Beth spent half of her weekly allowance playing arcade games. To earn more money her parents let her weed the garden for $7. What is her weekly allowance if she ended with $14?

175) Maria was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought ten more. How many did she start with if she now has 36?

176) Ndiba sold half of his comic books and then bought ten more. He now has 32. With how many did he begin?

177) The sum of three consecutive numbers is 75. What is the smallest of these numbers?

178) You had $25 to spend on seven raffle tickets. After buying them you had $11. How much did each raffle ticket cost?

179) The sum of three consecutive even numbers is 30. What is the smallest of these numbers?

180) Micaela sold half of her comic books and then bought seventeen more. She now has 42. With how many did she begin?

181) Paul spent $26 on a magazine and five erasers. If the magazine cost $6 then how much was each eraser?

182) Pranav spent half of his weekly allowance playing arcade games. To earn more money his parents let him weed the garden for $6. What is his weekly allowance if he ended with $15?

183) How old am I if 500 reduced by 3 times my age is 233?

184) Jessica spent half of her weekly allowance on clothes. To earn more money her parents let her clean the gutters for $5. What is her weekly allowance if she ended with $13?

185) Julio sold half of his comic books and then bought fifteen more. He now has 31. With how many did he begin?

186) Mary sold half of her comic books and then bought fifteen more. She now has 27. With how many did she begin?

187) For a field trip 21 students rode in cars and the rest filled ten buses. How many students were in each bus if 441 students were on the trip?

188) Alberto rented a bike from Amy's Bikes. It cost $15 plus $6 per hour. If Alberto paid $33 then he rented the bike for how many hours?

189) Jessica won 33 lollipops playing horseshoes at her school's game night. Later, she gave two to each of her friends. She only has 1 remaining. How many friends does she have?

190) A wise man once said, "500 reduced by 4 times my age is 132." What is his age?

191) Sumalee won 73 lollipops playing the bean bag toss at the county fair. At school she gave four to every student in her math class. She only has 1 remaining. How many students are in her class?

192) 219 students went on a field trip. Four buses were filled and 19 students traveled in cars. How many students were in each bus?

193) A wise man once said, "300 reduced by 4 times my age is 36." What is his age?

194) Sarawong was going to sell all of his stamp collection to buy a video game. After selling half of them he changed his mind. He then bought twenty more. How many did he start with if he now has 44?

195) Ashley rented a bike from Shanice's Bikes. It cost $13 plus $7 per hour. If Ashley paid $48 then she rented the bike for how many hours?

196) Kayla had $24 to spend on six pens. After buying them she had $0. How much did each pen cost?

197) Kim won 61 lollipops playing horseshoes at the county fair. At school she gave three to every student in her math class. She only has 7 remaining. How many students are in her class?

198) Rob won 46 pieces of gum playing horseshoes at the county fair. At school he gave three to every student in his math class. He only has 10 remaining. How many students are in his class?

199) You had $24 to spend on five pencils. After buying them you had $4. How much did each pencil cost?

200) Elisa spent half of her weekly allowance buying pizza. To earn more money her parents let her clean the gutters for $10. What is her weekly allowance if she ended with $20?

201) Jasmine spent half of her weekly allowance playing mini-golf. To earn more money her parents let her wash the dog for $9. What is her weekly allowance if she ended with $12?

202) Jimmy's Bikes rents bikes for $13 plus $6 per hour. Adam paid $49 to rent a bike. For how many hours did he rent the bike?

203) Sumalee was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought eighteen more. How many did she start with if she now has 34?

204) Shreya bought five hats. A week later half of all her hats were destroyed in a fire. There are now only 16 hats left. With how many did she start?

387) Norachai sold half of his comic books and then bought five more. He now has 26. With how many did he begin?

388) 231 students went on a field trip. Four buses were filled and 23 students traveled in cars. How many students were in each bus?

389) Kayla wanted to make note cards by cutting pieces of paper in half. Before starting she got six more pieces to use. When she was done she had 26 half-pieces of paper. With how many pieces did she start?

390) On Tuesday Jennifer bought ten posters. On Wednesday half of all the posters that she had were destroyed. On Thursday there were only 22 left. How many did she have on Monday?

391) The sum of three consecutive numbers is 66. What is the smallest of these numbers?

392) Elisa spent half of her weekly allowance playing arcade games. To earn more money her parents let her weed the garden for $5. What is her weekly allowance if she ended with $9?

393) How old am I if 400 reduced by 3 times my age is 163?

394) The Cooking Club made some pies to sell during lunch to raise money for a field trip. The cafeteria helped by donating two pies to the club. Each pie was then cut into eight pieces and sold. There were a total of 80 pieces to sell. How many pies did the club make?

395) The Cooking Club made some pies to sell during lunch to raise money for an end-of-year banquet. The cafeteria contributed two pies to the club. Each pie was then cut into six pieces and sold. There were a total of 66 pieces to sell. How many pies did the club make?

396) Stefan spent half of his weekly allowance playing mini-golf. To earn more money his parents let him wash the dog for $8. What is his weekly allowance if he ended with $14?

397) You bought a magazine for $2 and four candy bars. You spent a total of $22. How much did each candy bar cost?

398) Julia had $20 to spend on three notebooks. After buying them she had $14. How much did each notebook cost?

399) Asanji won 41 pieces of gum playing basketball at the county fair. At school he gave two to every student in his math class. He only has 9 remaining. How many students are in his class?

400) Shanice spent $25 on a magazine and six candy bars. If the magazine cost $7 then how much was each candy bar?

Two-step equations - word problems - integers

1) Half of your baseball card collection got wet 52
and was ruined. You bought 19 cards to
replace some that were lost. How many did
you begin with if you now have 45?

2) Daniel spent half of his weekly allowance $10
on candy. To earn more money his parents
let him wash the car for $5. What is his
weekly allowance if he ended with $10?

3) DeShawn's Bikes rents bikes for $11 plus $5 8
per hour. Maria paid $51 to rent a bike. For
how many hours did she rent the bike?

4) You had $21 to spend on seven raffle $3
tickets. After buying them you had $0.
How much did each raffle ticket cost?

5) The sum of three consecutive odd numbers 27
is 87. What is the smallest of these
numbers?

6) Anjali had $20 to spend on two pens. After $2
buying them she had $16. How much did
each pen cost?

7) Kim sold half of her comic books and then 60
bought eight more. She now has 38. With
how many did she begin?

8) The sum of three consecutive even numbers 10
is 36. What is the smallest of these
numbers?

9) Emily spent half of her weekly allowance $14
playing mini-golf. To earn more money her
parents let her wash the car for $9. What is
her weekly allowance if she ended with
$16?

10) The sum of three consecutive even numbers 20
is 66. What is the smallest of these
numbers?

11) Jasmine spent half of her weekly allowance $18
at the movies. To earn more money her
parents let her clean the oven for $7. What
is her weekly allowance if she ended with
$16?

12) Shawna sold half of her comic books and 38
then bought five more. She now has 24.
With how many did she begin?

13) You bought a magazine for $2 and some 2
erasers for $5 each. You spent a total of
$12. How many erasers did you buy?

14) Danielle spent half of her weekly allowance $12
at the movies. To earn more money her
parents let her clean the gutters for $10.
What is her weekly allowance if she ended
with $16?

15) 285 students went on a field trip. Five buses 54
were filled and 15 students traveled in cars.
How many students were in each bus?

16) Willie spent half of his weekly allowance on $20
candy. To earn more money his parents let
him clean the oven for $10. What is his
weekly allowance if he ended with $20?

17) Brenda was going to sell all of her stamp 40
collection to buy a video game. After
selling half of them she changed her mind.
She then bought thirteen more. How many
did she start with if she now has 33?

18) Half of your baseball card collection got wet 32
and was ruined. You bought 13 cards to
replace some that were lost. How many did
you begin with if you now have 29?

19) Aliyah had $24 to spend on three notebooks. $4
 After buying them she had $12. How much
did each notebook cost?

20) Trevon's Bikes rents bikes for $18 plus $8 7
per hour. Jaidee paid $74 to rent a bike. For
how many hours did she rent the bike?

21) Joe spent half of his weekly allowance playing arcade games. To earn more money his parents let him wash the dog for $7. What is his weekly allowance if he ended with $12? $10

22) Kristin was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought sixteen more. How many did she start with if she now has 40?   48

23) Norachai rented a bike from Adam's Bikes. It cost $20 plus $6 per hour. If Norachai paid $50 then he rented the bike for how many hours?   5

24) The sum of three consecutive odd numbers is 45. What is the smallest of these numbers?   13

25) Willie spent half of his weekly allowance on clothes. To earn more money his parents let him weed the garden for $5. What is his weekly allowance if he ended with $12? $14

26) 397 students went on a field trip. Eight buses were filled and 29 students traveled in cars. How many students were in each bus?   46

27) 259 students went on a field trip. Eight buses were filled and 27 students traveled in cars. How many students were in each bus?   29

28) Abhasra sold half of her comic books and then bought eighteen more. She now has 46. With how many did she begin?   56

29) Elisa bought a magazine for $6 and five candy bars. She spent a total of $26. How much did each candy bar cost? $4

30) The sum of three consecutive even numbers is 84. What is the smallest of these numbers?   26

31) Castel bought a magazine for $3 and seven erasers. He spent a total of $24. How much did each eraser cost? $3

32) 172 students went on a field trip. Five buses were filled and 27 students traveled in cars. How many students were in each bus?   29

33) 140 students went on a field trip. Six buses were filled and 8 students traveled in cars. How many students were in each bus?   22

34) Ryan spent half of his weekly allowance playing mini-golf. To earn more money his parents let him wash the dog for $8. What is his weekly allowance if he ended with $12? $8

35) Half of your baseball card collection got wet and was ruined. You bought 7 cards to replace some that were lost. How many did you begin with if you now have 29?   44

36) You bought a magazine for $7 and some candy bars for $3 each. You spent a total of $16. How many candy bars did you buy?   3

37) Adam was going to sell all of his stamp collection to buy a video game. After selling half of them he changed his mind. He then bought ten more. How many did he start with if he now has 31?   42

38) Shanice spent half of her weekly allowance at the movies. To earn more money her parents let her clean the windows in the house for $9. What is her weekly allowance if she ended with $14? $10

39) Daniel had $25 to spend on six pens. After buying them he had $1. How much did each pen cost? $4

40) For a field trip 19 students rode in cars and the rest filled six buses. How many students were in each bus if 211 students were on the trip?   32

41) Half of your baseball card collection got wet and was ruined. You bought 12 cards to replace some that were lost. How many did you begin with if you now have 22?   20

42) 280 students went on a field trip. Eight buses were filled and 16 students traveled in cars. How many students were in each bus?   33

43) Amanda was going to sell all of her stamp 48 collection to buy a video game. After selling half of them she changed her mind. She then bought thirteen more. How many did she start with if she now has 37?

44) Mei spent half of her weekly allowance $6 playing mini-golf. To earn more money her parents let her wash the dog for $4. What is her weekly allowance if she ended with $7?

45) The sum of three consecutive numbers is 69. 22 What is the smallest of these numbers?

46) The sum of three consecutive odd numbers 19 is 63. What is the smallest of these numbers?

47) Castel spent half of his weekly allowance $20 buying pizza. To earn more money his parents let him clean the gutters for $5. What is his weekly allowance if he ended with $15?

48) You bought a magazine for $7 and some 8 erasers for $4 each. You spent a total of $39. How many erasers did you buy?

49) The sum of three consecutive even numbers 18 is 60. What is the smallest of these numbers?

50) The sum of three consecutive numbers is 84. 27 What is the smallest of these numbers?

51) Jessica was going to sell all of her stamp 30 collection to buy a video game. After selling half of them she changed her mind. She then bought nine more. How many did she start with if she now has 24?

52) Mofor sold half of his comic books and then 36 bought nine more. He now has 27. With how many did he begin?

53) Huong bought a magazine for $2 and eight $4 erasers. She spent a total of $34. How much did each eraser cost?

54) Half of your baseball card collection got wet 24 and was ruined. You bought 5 cards to replace some that were lost. How many did you begin with if you now have 17?

55) Arjun spent half of his weekly allowance at $14 the movies. To earn more money his parents let him mow the lawn for $8. What is his weekly allowance if he ended with $15?

56) For a field trip 26 students rode in cars and 34 the rest filled nine buses. How many students were in each bus if 332 students were on the trip?

57) Jaidee spent half of her weekly allowance on $16 candy. To earn more money her parents let her wash the car for $10. What is her weekly allowance if she ended with $18?

58) Gabriella spent half of her weekly allowance $8 on candy. To earn more money her parents let her clean the gutters for $7. What is her weekly allowance if she ended with $11?

59) 224 students went on a field trip. Four 55 buses were filled and 4 students traveled in cars. How many students were in each bus?

60) Bill was going to sell all of his stamp 54 collection to buy a video game. After selling half of them he changed his mind. He then bought ten more. How many did he start with if he now has 37?

61) John sold half of his comic books and then 60 bought fourteen more. He now has 44. With how many did he begin?

62) The sum of three consecutive numbers is 66. 21 What is the smallest of these numbers?

63) 133 students went on a field trip. Three 42 buses were filled and 7 students traveled in cars. How many students were in each bus?

64) For a field trip 13 students rode in cars and 38 the rest filled three buses. How many students were in each bus if 127 students were on the trip?

65) Norachai bought a magazine for $7 and three candy bars. He spent a total of $19. How much did each candy bar cost? $4

66) Kathryn spent half of her weekly allowance playing arcade games. To earn more money her parents let her weed the garden for $5. What is her weekly allowance if she ended with $9? $8

67) Aliyah spent $34 on a magazine and six erasers. If the magazine cost $4 then how much was each eraser? $5

68) Julia had $20 to spend on eight advocados. After buying them she had $4. How much did each advocado cost? $2

69) The sum of three consecutive numbers is 78. What is the smallest of these numbers? 25

70) Totsakan sold half of his comic books and then bought twenty more. He now has 33. With how many did he begin? 26

71) Ashley was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought fourteen more. How many did she start with if she now has 26? 24

72) Nicole rented a bike from Jacob's Bikes. It cost $11 plus $3 per hour. If Nicole paid $23 then she rented the bike for how many hours? 4

73) Half of your baseball card collection got wet and was ruined. You bought 16 cards to replace some that were lost. How many did you begin with if you now have 28? 24

74) Matt's Bikes rents bikes for $14 plus $8 per hour. Anjali paid $54 to rent a bike. For how many hours did she rent the bike? 5

75) Perry spent half of his weekly allowance on clothes. To earn more money his parents let him wash the car for $7. What is his weekly allowance if he ended with $15? $16

76) Cody spent half of his weekly allowance on candy. To earn more money his parents let him wash the dog for $8. What is his weekly allowance if he ended with $17? $18

77) Gabriella spent half of her weekly allowance on clothes. To earn more money her parents let her clean the oven for $6. What is her weekly allowance if she ended with $15? $18

78) 189 students went on a field trip. Four buses were filled and 29 students traveled in cars. How many students were in each bus? 40

79) Norachai sold half of his comic books and then bought eleven more. He now has 32. With how many did he begin? 42

80) Wilbur spent half of his weekly allowance buying pizza. To earn more money his parents let him wash the car for $9. What is his weekly allowance if he ended with $15? $12

81) Brenda was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought twelve more. How many did she start with if she now has 41? 58

82) The sum of three consecutive even numbers is 90. What is the smallest of these numbers? 28

83) Shawna sold half of her comic books and then bought fifteen more. She now has 42. With how many did she begin? 54

84) Brenda spent half of her weekly allowance at the movies. To earn more money her parents let her weed the garden for $5. What is her weekly allowance if she ended with $14? $18

85) You had $24 to spend on seven advocados. After buying them you had $10. How much did each advocado cost? $2

86) Half of your baseball card collection got wet and was ruined. You bought 14 cards to replace some that were lost. How many did you begin with if you now have 37? 46

87) Ndiba rented a bike from Kim's Bikes. It cost $20 plus $3 per hour. If Ndiba paid $35 then he rented the bike for how many hours?   5

88) You had $20 to spend on four raffle tickets. After buying them you had $12. How much did each raffle ticket cost? $2

89) Half of your baseball card collection got wet and was ruined. You bought 18 cards to replace some that were lost. How many did you begin with if you now have 38?   40

90) Half of your baseball card collection got wet and was ruined. You bought 17 cards to replace some that were lost. How many did you begin with if you now have 42?   50

91) Paul sold half of his comic books and then bought four more. He now has 22. With how many did he begin?   36

92) For a field trip 6 students rode in cars and the rest filled nine buses. How many students were in each bus if 258 students were on the trip?   28

93) Stefan's Bikes rents bikes for $19 plus $5 per hour. Micaela paid $39 to rent a bike. For how many hours did she rent the bike?   4

94) The sum of three consecutive odd numbers is 69. What is the smallest of these numbers?   21

95) Jill sold half of her comic books and then bought nineteen more. She now has 43. With how many did she begin?   48

96) For a field trip 9 students rode in cars and the rest filled eight buses. How many students were in each bus if 337 students were on the trip?   41

97) Kali spent $15 on a magazine and some erasers. If the magazine cost $3 and each eraser cost $2 then how many erasers did she buy?   6

98) For a field trip 7 students rode in cars and the rest filled ten buses. How many students were in each bus if 527 students were on the trip?   52

99) 268 students went on a field trip. Nine buses were filled and 16 students traveled in cars. How many students were in each bus?   28

100) Mary spent half of her weekly allowance playing mini-golf. To earn more money her parents let her clean the gutters for $6. What is her weekly allowance if she ended with $16? $20

101) Matt spent half of his weekly allowance buying pizza. To earn more money his parents let him clean the gutters for $4. What is his weekly allowance if he ended with $9? $10

102) A wise man once said, "400 reduced by 3 times my age is 244." What is his age?   52

103) You had $21 to spend on seven notebooks. After buying them you had $7. How much did each notebook cost? $2

104) You had $21 to spend on six advocados. After buying them you had $3. How much did each advocado cost? $3

105) Beth was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought eight more. How many did she start with if she now has 23?   30

106) Pranav had $21 to spend on four advocados. After buying them he had $5. How much did each advocado cost? $4

107) You had $21 to spend on two notebooks. After buying them you had $17. How much did each notebook cost? $2

108) Kayla won 54 super bouncy balls playing hoops at her school's game night. Later, she gave two to each of her friends. She only has 6 remaining. How many friends does she have? 24

109) How old am I if 400 reduced by 2 times my age is 276? 62

110) Dan spent half of his weekly allowance buying pizza. To earn more money his parents let him clean the windows in the house for $8. What is his weekly allowance if he ended with $14? $12

111) Abhasra spent half of her weekly allowance on clothes. To earn more money her parents let her mow the lawn for $5. What is her weekly allowance if she ended with $14? $18

112) Elisa spent half of her weekly allowance on candy. To earn more money her parents let her wash the car for $5. What is her weekly allowance if she ended with $15? $20

113) Julia's Bikes rents bikes for $16 plus $8 per hour. Jasmine paid $32 to rent a bike. For how many hours did she rent the bike? 2

114) For a field trip 5 students rode in cars and the rest filled three buses. How many students were in each bus if 176 students were on the trip? 57

115) Half of your baseball card collection got wet and was ruined. You bought 15 cards to replace some that were lost. How many did you begin with if you now have 45? 60

116) A wise man once said, "200 reduced by twice my age is 66." What is his age? 67

117) 173 students went on a field trip. Six buses were filled and 23 students traveled in cars. How many students were in each bus? 25

118) Julia sold half of her comic books and then bought twenty more. She now has 49. With how many did she begin? 58

119) Kristin won 41 lollipops playing the bean bag toss at the county fair. At school she gave three to every student in her math class. She only has 5 remaining. How many students are in her class? 12

120) How old am I if 500 reduced by 2 times my age is 368? 66

121) Half of your baseball card collection got wet and was ruined. You bought 19 cards to replace some that were lost. How many did you begin with if you now have 32? 26

122) Nicole spent half of her weekly allowance at the movies. To earn more money her parents let her weed the garden for $6. What is her weekly allowance if she ended with $12? $12

123) You had $22 to spend on four pencils. After buying them you had $10. How much did each pencil cost? $3

124) Amy spent $9 on a magazine and three erasers. If the magazine cost $3 then how much was each eraser? $2

125) How old am I if 300 reduced by 2 times my age is 136? 82

126) Gabriella spent half of her weekly allowance at the movies. To earn more money her parents let her clean the windows in the house for $10. What is her weekly allowance if she ended with $16? $12

127) Aliyah spent half of her weekly allowance on candy. To earn more money her parents let her clean the oven for $4. What is her weekly allowance if she ended with $11? $14

128) Jennifer won 58 pieces of gum playing the bean bag toss at her school's game night. Later, she gave four to each of her friends. She only has 2 remaining. How many friends does she have? 14

129) Mark sold half of his comic books and then bought nine more. He now has 29. With how many did he begin? 40

130) For a field trip 22 students rode in cars and the rest filled seven buses. How many students were in each bus if 435 students were on the trip? 59

131) Julia had $20 to spend on two pencils. After buying them she had $12. How much did each pencil cost? $4

132) Jacob spent half of his weekly allowance on candy. To earn more money his parents let him clean the windows in the house for $9. What is his weekly allowance if he ended with $12? 6

133) DeShawn sold half of his comic books and then bought eight more. He now has 20. With how many did he begin? 24

134) The sum of three consecutive even numbers is 48. What is the smallest of these numbers? 14

135) How old am I if 400 reduced by 4 times my age is 84? 79

136) How old am I if 400 reduced by 3 times my age is 124? 92

137) Julio rented a bike from Ndiba's Bikes. It cost $14 plus $8 per hour. If Julio paid $54 then he rented the bike for how many hours? 5

138) Mofor was going to sell all of his stamp collection to buy a video game. After selling half of them he changed his mind. He then bought fourteen more. How many did he start with if he now has 38? 48

139) Half of your baseball card collection got wet and was ruined. You bought 5 cards to replace some that were lost. How many did you begin with if you now have 32? 54

140) You bought a magazine for $6 and some candy bars for $2 each. You spent a total of $14. How many candy bars did you buy? 4

141) Half of your baseball card collection got wet and was ruined. You bought 13 cards to replace some that were lost. How many did you begin with if you now have 39? 52

142) For a field trip 4 students rode in cars and the rest filled three buses. How many students were in each bus if 136 students were on the trip? 44

143) Ted spent half of his weekly allowance at the movies. To earn more money his parents let him clean the windows in the house for $5. What is his weekly allowance if he ended with $8? $6

144) Jaidee had $21 to spend on six pencils. After buying them she had $9. How much did each pencil cost? $2

145) Trevon spent half of his weekly allowance playing mini-golf. To earn more money his parents let him wash the dog for $8. What is his weekly allowance if he ended with $17? $18

146) A wise man once said, "400 reduced by twice my age is 224." What is his age? 88

147) A wise man once said, "400 reduced by 4 times my age is 20." What is his age? 95

148) Sarawong sold half of his comic books and then bought fourteen more. He now has 30. With how many did he begin? 32

149) Anjali spent half of her weekly allowance at the movies. To earn more money her parents let her clean the windows in the house for $10. What is her weekly allowance if she ended with $13? 6

150) Ming's Bikes rents bikes for $11 plus $2 per hour. Carlos paid $25 to rent a bike. For how many hours did he rent the bike? 7

151) 219 students went on a field trip. Five buses were filled and 9 students traveled in cars. How many students were in each bus? 42

152) Shawna won 54 lollipops playing horseshoes at the county fair. At school she gave four to every student in her math class. She only has 2 remaining. How many students are in her class?   13

153) You bought a magazine for $3 and three candy bars. You spent a total of $12. How much did each candy bar cost? $3

154) How old am I if 300 reduced by 4 times my age is 80?   55

155) Scott sold half of his comic books and then bought eight more. He now has 32. With how many did he begin?   48

156) How old am I if 500 reduced by 4 times my age is 160?   85

157) A wise man once said, "400 reduced by twice my age is 242." What is his age?   79

158) Perry spent $19 on a magazine and some erasers. If the magazine cost $4 and each eraser cost $5 then how many erasers did he buy?   3

159) Darryl spent half of his weekly allowance buying pizza. To earn more money his parents let him clean the gutters for $5. What is his weekly allowance if he ended with $12? $14

160) You bought a magazine for $3 and two candy bars. You spent a total of $9. How much did each candy bar cost? $3

161) Jenny spent $30 on a magazine and some erasers. If the magazine cost $6 and each eraser cost $3 then how many erasers did she buy?   8

162) Krystal won 38 lollipops playing horseshoes at her school's game night. Later, she gave two to each of her friends. She only has 8 remaining. How many friends does she have?   15

163) The sum of three consecutive numbers is 72. What is the smallest of these numbers?   23

164) Ming spent half of her weekly allowance on candy. To earn more money her parents let her wash the car for $8. What is her weekly allowance if she ended with $18? $20

165) Gabriella was going to sell all of her stamp collection to buy a video game. After selling half of them she changed her mind. She then bought five more. How many did she start with if she now has 19?   28

166) Jack won 60 lollipops playing hoops at his school's game night. Later, he gave two to each of his friends. He only has 10 remaining. How many friends does he have?   25

167) 294 students went on a field trip. Seven buses were filled and 14 students traveled in cars. How many students were in each bus?   40

168) A wise man once said, "300 reduced by twice my age is 144." What is his age?   78

169) Eduardo spent half of his weekly allowance on clothes. To earn more money his parents let him weed the garden for $8. What is his weekly allowance if he ended with $12? $8

170) For a field trip 16 students rode in cars and the rest filled six buses. How many students were in each bus if 340 students were on the trip?   54

171) For a field trip 17 students rode in cars and the rest filled nine buses. How many students were in each bus if 413 students were on the trip?   44

172) How old am I if 400 reduced by 4 times my age is 184?   54

173) Molly won 99 pieces of gum playing basketball at the county fair. At school she gave four to every student in her math class. She only has 7 remaining. How many students are in her class?   23

174) Beth spent half of her weekly allowance $14 playing arcade games. To earn more money her parents let her weed the garden for $7. What is her weekly allowance if she ended with $14?
